Creating Canada's Largest Capstone Ecosystem

- Global Futures Initiative (more info [here](#))
- Our contacts:
 - Prof. Derek Rayside (Initiative Lead, Mentor)
 - Mr. Jamieson Cox (Centre for Work-Integrated Learning)
- We're first rolling out this initiative to UWaterloo students
- Long-term vision: accessible to all Canadian Universities

Problem Recap

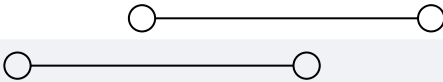

Manual Matching Work

Current cross-faculty matching depends on large PDFs built from student survey responses

4 main problems

1. Students cannot easily search/compare opportunities
2. Most students form teams with people they already know
3. Faculty/staff coordinate matching by hand
4. No clear system of record for consent, approvals, or decisions for interdisciplinary matching

✦ 02 ✦

Why this
matters

Who does this impact?

A platform for capstone matching helps...

Students

Find teammates, projects, external opportunities beyond their own network!

Instructors

Review proposals, give feedback, manage teams, track decisions in one centralized roster!

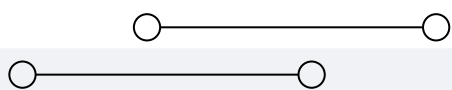

External Partners

Share opportunities and ideas with students!

Universities

To support interdisciplinary capstones at a large scale

Mid 1 - Meeting with Feedback Team

Every Sunday (10AM-12PM)

Mid 1 Meetings: 05/18, 05/25, 05/31, 06/07

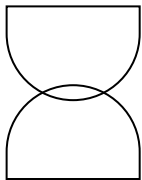

Suggestions from Team:

- **Ben:** Late-stage vision, brainstorm invariants/flows on term turnaround (e.g.: Spring -> Fall)
- **Lexie:** Admin has too much granular power, split roles somehow
- **Adib:** Mid-stage vision, consider how mentors can give feedback on team progression
- **Andrew:** Past capstones look great; More detail for student profiles would be nicer

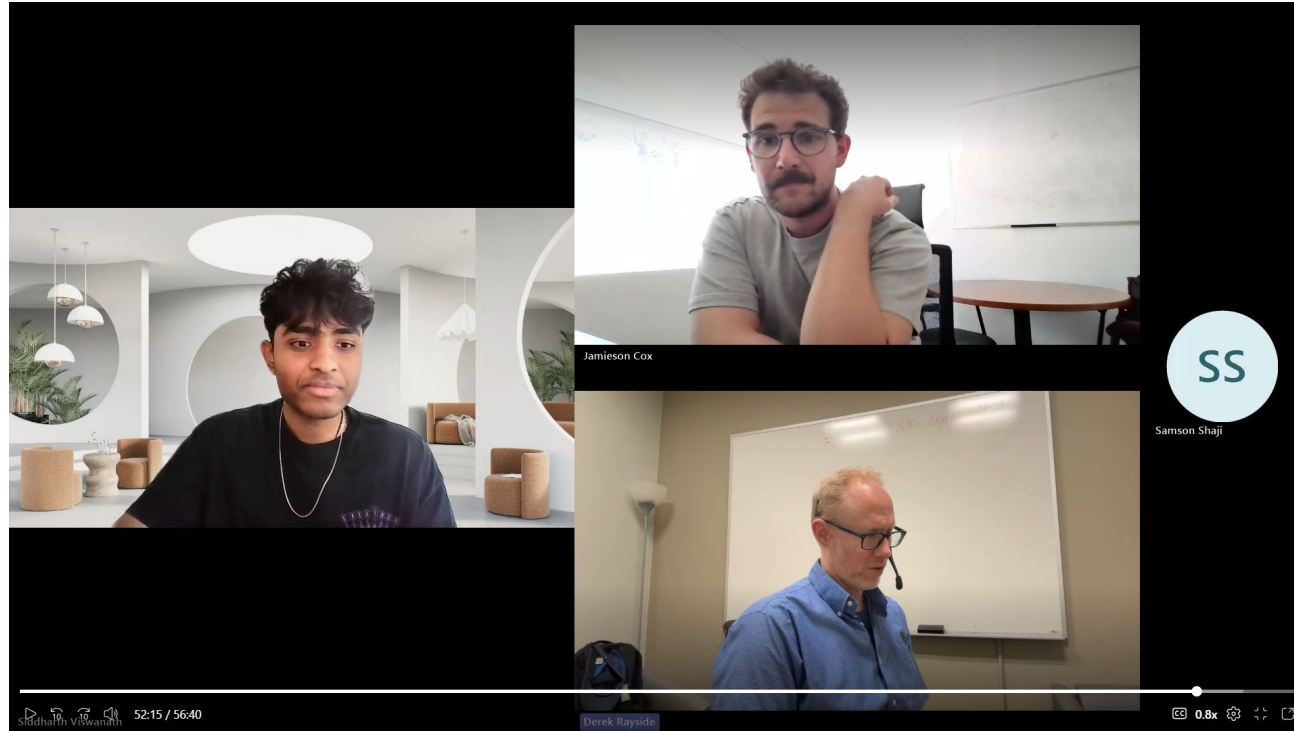

Mid 1 - Demo

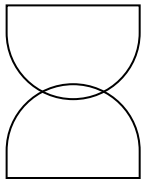

Mid 1 - Meeting with Stakeholders

Recorded on MS Teams for teammates in the fall to reference

Mid 1 - Meeting with Stakeholders

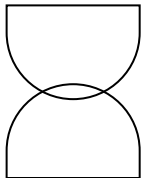

[06/04] Meeting with **Prof. Derek Rayside** and **Mr. Jamieson Cox**

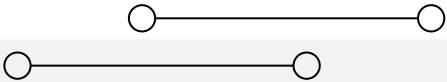

Feedback

- Major change required: when SE490 student wants to join ECE498A capstone
 - SE490 instructor should never block, the student's request goes to academic advisor
 - Advisor approves course switch into either ECE498A or i-Capstone
- Airtable forms: [Capstone Partner](#), [Student Registration](#), [Capstone Submission](#)
- Long-term feedback:
 - We want to encourage non-eng students to do capstones
 - We want it to feel more like a “marketplace” than a 1:1 match

Requests made to Prof. Rayside

- Push for VM allocation from IST / ENG Computing (blocker for UW ADFS auth)
- More frequent meetings / communication to discuss state of desired features
